Trails Assessment for Southern Michaux

Russell Hedberg, Ph.D., Center for Land Use and Sustainability

South Mountain Partnership Science Summit, April 12, 2024

About the CLUS

Our Mission: Fostering healthy, vibrant, and sustainable communities through applied research, experiential learning opportunities, and interdisciplinary, cross-sector partnerships.

About the CLUS

Our vision is to be a leader in transforming scientific research into social innovations that promote a thriving economy while preserving resources and reducing the impacts of climate change.

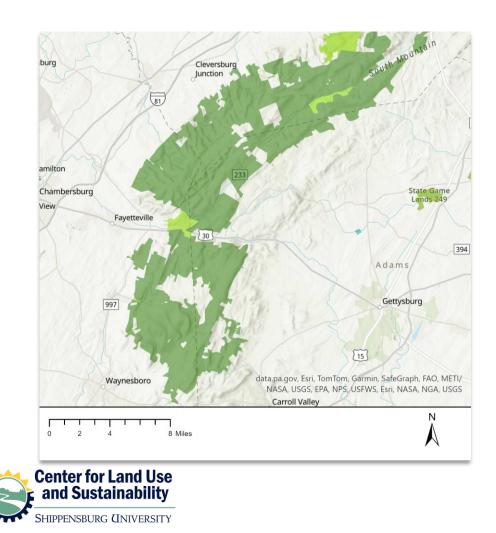

Our Guiding Values:

- 1. Fostering Sustainability, Justice, and Equity
- 2. Student Success
- 3. Professional Excellence
- 4. Collaboration

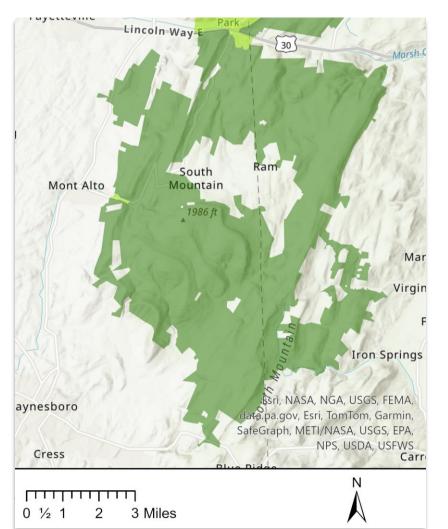

Background:

 A continuation of comprehensive trail sustainability assessments across Michaux State Forest

Study Area:

- 7 of 10 management areas
- All 4 natural areas in MSF
- ~ 15 miles of App. Trail
- 179 lease camp sites
- 25 State Forest campsites

Current Trails:

- Heavily used
- Largely informal
- User-built

Assessment Objectives:

- 1. GIS analysis of current trail network
- Develop a trail suitability model based on management priorities
- 3. Conduct field-based trail assessment
- 4. Engage with user groups to understand citizen engagement and support management priorities.

Trail Optimization for Sustainability & Better Outdoor Recreation
