SOUTH MOUNTAIN
PARTNERSHIP
CONSERVATION NETWORK

YEAR IN REVIEW 2025

COLLECTIVE *impact* OF THE PARTNERSHIP

We surveyed our partners to gather the collective impact of our shared efforts in the region in 2025. 16 of our 63 partners responded.

SMP'S *impact*

The following metrics provide a snapshot of South Mountain Partnership's (SMP's) impact in advancing conservation, collaboration, and community vitality across the region.

State of the Region

State of the Region (SOTR) Action Projects are going strong in 2025! State of the Region Implementation project, updating our Natural Heritage Inventory (NHI) data, held its final field season in 2025. This project is remarkable because it updates over 20-year-old data that helps protect sensitive species and habitats, and it's supported by all four counties, Western PA Conservancy, and the South Mountain Partnership. Check out some of the numbers below.

METRICS FOR NHI UPDATE

State of the Region Implementation Regional Trail Coalition kicked off in 2025 with feedback gathered from all of the Partnership at our spring meeting. That feedback helped us finalize our RFP and select a contractor. Look for next steps in early 2026.

Completing Our Three-Year Strategic Plan

In 2025, SMP completed its 2022-2025 Strategic Plan—an important milestone driven by our collaborative network of volunteer leaders, partners, and staff across the region. Guided by five volunteer committees and supported by the Institute for Conservation Leadership, the plan remained grounded in local priorities while adapting to emerging challenges and opportunities through quarterly review by the Leadership Committee.

The plan delivered meaningful progress, including:

- **A new website, logo, and strengthened communications**, increasing visibility of partner roles, projects, and successes.
- **A revitalized "Power of the Partnership" Celebration**, boosting attendance and deepening connection through a renewed focus on regional culture and collaboration.
- **The first-ever State of the Region report**, developed with more than 30 partners to assess environmental and public health, identify priority conservation areas, and recommend actions to address six key regional challenges—now moving into implementation.

6
GOALS
16
OBJECTIVES
71
ACTION STEPS
100%
COMPLETED

These achievements were made possible by 35 committee members and 63 partner organizations. As we approach our 20th anniversary in 2026, SMP is building on this momentum through new strategic planning, advancing regional conservation and trail initiatives, strengthening public land coordination, and expanding the reach of research and communications efforts to protect the health and vitality of the South Mountain region.

Grants

SMP grants support initiatives within our community that further the goals of the Partnership and advance the capacity of partners throughout the region. Below are the projects funded in 2025:

Mini-Grants

[The Conococheague Institute](#) - Native Habitat Restoration - \$2,500

This project will create a native foundation garden around the birding wetlands area and a native welcome garden. The project will be implemented with the help of local high school student volunteers.

[Cumberland Valley Rails to Trails Council](#) - Middle Spring Greenway - \$15,000

The Middle Spring Greenway from Martin Ave. to Burd St. will connect the Cumberland Valley Rail Trail Shippensburg Station trailhead to the new Library Square site in downtown Shippensburg.

[Gettysburg College Advancing Science Program](#) - South Mountain K-12

Geoheritage Story - \$14,100

AdvSci will create a K-12 geoheritage story linking PA science standards to the south mountain landscape, with lesson plans and loaner kits to help teachers and students explore local science concepts.

[Social Enterprise Institute USA](#) - Caledonia State Park Watershed Assessment - \$8,900

Geomorphological assessment of Caledonia State Park waters, with detailed recommendations for enhancing ecological functions and values.

[South Middleton Township](#) - Boating and Fishing Accessibility Improvements - \$7,500

The South Middleton Township Boating and Fishing Accessibility Improvements project will result in an easily accessible concrete canoe/kayak launch along the Yellow Breeches Creek across from South Middleton Township Park.

Flex Grants

[Southampton Township](#) - Furnace Run Park Habitat Restoration - \$2,000

This project will convert 80 acres of acquired agricultural land into natural habitat that will strengthen the capacity for local wildlife and ensure desirable native plant and animal communities.

[Southern Appalachian Woodland Network in PA](#) - Woodland Conservation Stewardship and Training - \$750

Delivery of year-round education and training in woodland stewardship best practices for forest landowners and enthusiasts that will help achieve effective conservation of forest land in Adams, Cumberland, Franklin, and adjoining counties.

[Perry Yingling](#) - [Kestrel NestWatch](#) - \$1,050

Build nest boxes to provide adequate nesting habitat and to benefit Kestrel research by contributing to the Cornell Lab of Ornithology NestWatch citizen science project.

Research Grants

[Shippensburg University](#) - Warehouse Development and Air Quality - \$4,000

The development of warehouses and local air quality will be studied in Cumberland and Franklin counties.

[Franklin and Marshall](#) - Investigating Sources of Water Discharging - \$3,000

Sources discharging from The Bubble (Boiling Springs) and the Huntsdale Fish Hatchery Springs will be studied.

Partnership Committee Members

Join us in thanking and recognizing these individuals who have shared so much of their time and wisdom with the Partnership.

South Mountain Partnership Committees are networks of people that lead conservation efforts by providing strategic counsel, infrastructure, and organizational management. We can only operate through the support of diverse and active committees that move the organization forward through programming, communications, and special initiatives.

The South Mountain Partnership is financed in part by a grant from the Community Conservation Partnerships Program, the Environmental Stewardship Fund, and under the administration of the Pennsylvania Department of Conservation and Natural Resources, Bureau of Recreation and Conservation.

SMP in the Community

In 2025, SMP strengthened collaboration and capacity across the region by convening, educating, and supporting its partners in multiple ways.

- **294 partners engaged** through three signature in-person events:
 - Winter meeting at Keystone Kidspace (York)
 - Spring meeting at Oakside Community Park (Biglerville)
 - Power of the Partnership Celebration at Kings Gap Environmental Education Center (Carlisle)
- **2 Lunch and Learn webinars** supported 30 partners in improving applications to SMP and PA DCNR-funded programs and using State of the Region data to strengthen projects.
- **1 Walk and Talk** cohosted with the Franklin County Visitors Bureau engaged ~30 participants at the Monterey Pass Battlefield, highlighting the region's cultural and natural assets.
- **2 Topophilic Support Group meet-ups** at Big Hill Cider fostered peer support and connection among conservation professionals dedicated to place-based work.

Thank You to Our Donors

Currently, the Friends of the South Mountain Partnership fund yearly Flex Grants to the community, in addition to supporting Partnership events and opportunities. Join us in thanking and recognizing these donors.

OUR *landscape* OUR *home*

Despite the different opinions, perspectives, and worldviews that each of us carry, we all share a common trait: we call the South Mountain landscape home. We believe in the power of this common ground to build conversation around the future of this landscape--and our future while living within this landscape. SMP brings people together across geo-political and sectorial boundaries to highlight the importance of our landscape and take action to secure its future.

Partner with us to ensure a bright future for our home.
