Our Landscape Our Home

The South Mountain landscape is our home. Its ancient mountains and valleys, flowing rivers and streams, rolling farmland and flourishing industry, form a landscape that nourishes and sustains us.

Despite differing perspectives and worldviews, we all cherish this place. We share the belief in the power of finding common ground to build a conversation around the future of this treasured landscape - and our future along with it.

For twenty years the South Mountain Partnership has been bringing a broad spectrum of people together to highlight the importance of this special place and take action to secure its future.

Partner with us to ensure a bright future for our home.
